**\*I feel like there are still gaps in my knowledge. What should I do about that?**

Firstly, it is great that you have identified this for yourself and are keen to improve your own progress and achievement. The following steps will help you to create your own intervention:

1. Find where the resources are on the relevant Google classroom and go over/ re- do/ catch up
2. If you need help with finding them, ask: someone in your class; your teacher; your tutor; someone in the hub; someone at home
3. If you need further support, arrange a time to see your teacher or tutor outside of lesson time so this can be discussed with you
4. An intervention pathway may be created for you if you need more support than that outlined in steps 1 - 3.

Remember, it is a very valuable skill to be able to admit you don't know or need help. The only way you can succeed is to ask for and accept help when you need it. This is a true life skill!
